

CYBERSECURITY SYMPOSIUM

~~APRIL 20 - 22, 2020~~

Coeur d'Alene, Idaho, U.S.A.

OCTOBER 8 - 10, 2020

CALL FOR PAPERS

The 2020 Cybersecurity Symposium is an opportunity for researchers, government agency representatives, and business professionals to come together to discuss the cybersecurity challenges facing the world. We seek paper submissions from academia, industry, and government describing innovative research, case studies, and best practices on all practical and theoretical aspects of cybersecurity.

Examples of possible topics include:

- Network Security
- Secure Coding Practices
- Software Analysis
- Security Policies
- Blockchain
- Security of Cloud Services
- Privacy and Anonymity
- Sociological and Behavioral Aspects of Security and Privacy
- Critical Infrastructure Security
- Industrial Control System Security
- Economic Impacts of Security
- Transportation System Security
- Power Grid/Smart Grid Security
- System Security Case Studies
- Situational Awareness
- Computer and Network Forensics
- Malware Analysis and Reverse Engineering
- Cybersecurity Education and Training
- IoT Security
